

FAQ

What is Google Pay™?

Google Pay™ offers an easy, secure and convenient way to pay on Android devices. Collabria credit cards can be used with Google Pay to pay on-the-go at merchants who accept contactless payments, in participating apps and on the web. Google Pay will provide real-time notifications and details for your purchases when you use Google pay on your Android device

Which cards and devices can use Google Pay?

All Collabria credit cards are available for use with Google Pay.

To use Google Pay in-store, your Android software version must be Lollipop (5.0) or higher. To use Google Pay for [in-app or website transactions](#), click the google pay button as a payment method.

Where can I use Google Pay?

You can use Google Pay to make payments:

- + In stores with supported devices wherever contactless payments are accepted, within apps and on the web in Safari
- + In participating merchant apps
- + On the web with supported devices

Look for one of these symbols at checkout:

How can I add my Collabria credit card to Google Pay?

You can add a credit card directly to the Google Pay app. Just open the app and follow the on-screen instructions.

[For additional information on adding your card, please review this Google Pay page which includes videos and instructions.](#)

Please note that you must accept the Collabria Terms of Use for Google Pay each time you add a Collabria credit card to Google Pay and that you are subject to Google's terms and conditions.

If I receive a replacement Collabria credit card, do I need to update my card information with Google Pay?

The Device Account Number is connected to the card number automatically. However, if your device is not working once you receive a replacement card, we suggest you add the new card to your Android device.
