

What is Samsung Pay™?

Samsung Pay™ offers the convenience and security of contactless payments by simply hovering your phone or wearable over the merchant's card reader to complete your purchase. All Collabria Credit Cards can be loaded into the Samsung Pay Wallet by downloading the app from the Apps menu. Samsung Pay uses several layers of security and does not store or share cardholder information.

Which cards and devices can use Samsung Pay?

All Collabria credit cards are available for use with Samsung Pay.

To use Samsung Pay in-store, you must have a compatible Samsung device and Samsung account.

Where can I use Samsung Pay?

You can use Samsung Pay to make payments:

- + In stores with supported devices wherever contactless payments are accepted.

Look for one of these symbols at checkout:

How can I add my Collabria credit card to Samsung Pay?

You can add a credit card directly to the Samsung Pay app. Just open the app and follow the on-screen instructions. Click [here for step-by-step instructions](#).

[For additional information on adding your card, please review this Samsung Pay page which includes videos, instructions, and a list of compatible devices.](#)

Please note that you must accept the Collabria Terms of Use for Samsung Pay each time you add a Collabria credit card to Samsung Pay and that you are subject to Samsung's terms and conditions.

If I receive a replacement Collabria credit card, do I need to update my card information with Samsung Pay?

The Device Account Number is connected to the card number automatically.

However, if your device is not working once you receive a replacement card, we suggest you add the new card to your Samsung device.
